

# CIMPA IN-SERVICE LIFECYCLE MANAGEMENT

## Damage Folio™ for Structure Damage reporting

### Customer benefits

- Full damage reporting in a single inspection
- Overview of aircraft damage history
- Consultation of repair manuals on mobile device
- Visual representation of aircraft damage
- Ability to take and modify pictures for immediate insertion into reports
- Mixed fleet usage and manufacturers (Rotorcraft & Fixed wing)
- Capability to send damage reports to aircraft manufacturer
- Location assistance (precise measure between two frames)

**Damage Folio for Structure enables to gather all the required data during a single inspection, by means of a user-friendly application designed for mobile devices.**

When aircraft damage occurs, the challenge is to quickly capture and report accurate information to facilitate efficient decision making.

This damage capture service shortens, secures and automates the damage assessment process, making the reporting of the damage more efficient.

#### REDUCED UNCERTAINTY

Acceleration of information exchange with more accurate information (and therefore less iteration loops)

#### CLEAR WAY FORWARD

Depending on the severity of damage and operators' processes, such information has to be shared between Operations, MROs and aircraft manufacturers

#### MINIMISED DISRUPTION

A service customizable to your needs

All the required data gathered during a single inspection

## Our turnkey offer for specific challenges

### Maximise fleet or asset operations efficiency with our in-service support

Our in-service lifecycle offer focuses on maximising operations at optimal cost without compromising on safety. We optimise the information systems interfaces for maintenance and flight operations with end-to-end innovative solutions:

- A unique in-service solution based on advanced technological bricks assembled together to your requirements.
- Accelerating the exchange of accurate structural damage information.

These services are intended for OEM customer services, airline companies, MRO (Maintenance Repair Overhaul) companies, airports, fleet operators and asset operators.
