

Description	Duration	Location	January	February	March	April
<b>Catia V5 Fundamentals</b>	5 days	Filton Bristol	12th to 16th	9th to 12th	9th to 13th	13th to 17th
<p>This course will teach you how to use CATIA Team PLM configuration workbenches to build simple parts and assemblies. You will learn how to make simple drawings of those parts and assemblies. You will also learn about basic Wireframe and Surface creation.</p>						
<b>Catia V5 Mechanical Design Expert</b>	5 days	Filton Bristol	26th to 30th	23rd to 27th	23rd to 27th	27th to 30th
<p>This course will teach you how to start a complex design project from its specifications (top down approach) and complete it by reusing existing data. It will focus on advanced skills and concepts that enable you to create and analyze complex parts and assemblies</p>						
<b>Catia V5 to V6 Mechanical Design Transition</b>	2 days	Filton Bristol	20th-21st	17th-18th	3rd-4th	1st-2nd 21st-22bd
<p>This course will teach you how to import data and search for models in the CATIA V6 database. You will learn how to perform modifications, check impacts and propagate modifications using a role-based scenario. You will also learn how to design in context, replace components with new versions and analyze a product.</p>
